

DWTS mechanism selection guide (data-informed)

B Decision cards (priority × stress)

Fairness-first

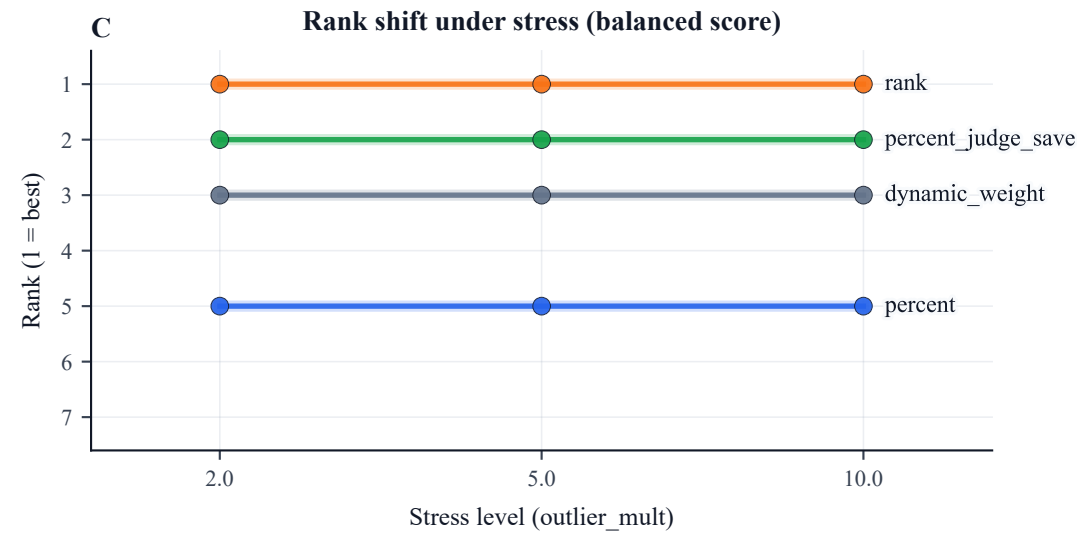

stress=2.0 pick=rank TPI=0.85 Fan=0.39 Fail=0.51
stress=5.0 pick=rank TPI=0.85 Fan=0.39 Fail=0.54
stress=10.0 pick=rank TPI=0.85 Fan=0.39 Fail=0.54

Balanced

stress=2.0 pick=rank TPI=0.85 Fan=0.39 Fail=0.51
stress=5.0 pick=rank TPI=0.85 Fan=0.39 Fail=0.54
stress=10.0 pick=rank TPI=0.85 Fan=0.39 Fail=0.54

Entertainment-first

stress=2.0 pick=percent_log TPI=0.74 Fan=0.70 Fail=0.75
stress=5.0 pick=percent_log TPI=0.74 Fan=0.70 Fail=0.83
stress=10.0 pick=percent_log TPI=0.74 Fan=0.70 Fail=0.83

How to use:

- 1) Pick producer priority
- 2) Check stress level
- 3) Choose mechanism card

Balanced score = $0.45 \cdot \text{TPI} + 0.35 \cdot \text{Fan} + 0.20 \cdot \text{Robust}$
(all normalized within each stress)
